

# TEAM BUILDING ONLINE

## Developing Strong Teams

**For staff/leadership development, teamwork and retreats**

### the CHALLENGE:

Working together remotely has put some challenges into working together effectively. Teamwork and team interaction now requires more preparation, deliberate awareness and effort. And yet we know that the team effort is what makes our organizations expand and thrive!

### the GOOD NEWS:

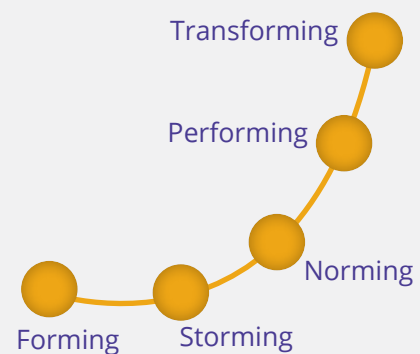

Online Team Building really works! There are several software platforms developed specifically for team discovery that work very well with breakout formats. And getting your leaders or your team focused together can accelerate them toward your targets and team goals. It's also a great way to strengthen team communication and modifying approaches to different work styles.

**In this fun and engaging workshop, your team members will learn from the principles from which you select are crucial and relevant:**

- Increase trust among the team
- Work through challenges together
- Understand each other's work style and approach
- Modify your approach to work together effectively
- Establish targets and manage change
- Align the team by crafting a team vision that includes their values
- Increasing team work through connection and collaboration
- Establish new approaches and align team outcomes
- Resolve conflicts, misunderstandings and finger pointing
- Learn tools to manage pressure and workload stress together

### YOUR TEAM, YOUR FOCUS!

At what stage is your team and where do you desire to be?

*Dr. Bruce Tuckman*

**Ask me about customizing this training to your team's needs. Leadership Training and Presentation Skills principles can be included.**
